

Tripping on the stairs so that her outstretched hand went through the glass in the door leading from the stairs of the Nova Scotia house to the street, Miss Alia Brontz who has been employed in the kitchen of the hotel for some time, sustained severe injuries last night.

Immigrants Not Needed In South America, Says Member of Botha Cabinet

DECLARES THAT CAMPAIGN TO SECURE EXODUS FROM EUROPE TO NEW DOMINION WOULD CHIEFLY MEAN A REDUCTION IN WAGES.

(Globe Press Service)
Cape Town, July 17.—General Hertzog's position as leader of the reactionary element in Botha's cabinet is admirably illustrated by a speech which he delivered a few days ago to his constituents at Smithfield. Dealing with the question of European immigration into South Africa, General Hertzog expressed a doubt whether it could be justified on its merits.

Before their money should be spent on the importation of immigration it must be proved that they would be a boon to the country from an economic point of view, and that could only be the case when a real demand for more population existed. Speculators who possessed millions of money would welcome immigrants to enhance the value of their ground, and mining proprietors would also have the same reason for favoring the scheme, because many people would be drawn to the towns and white labor would become cheaper. "What interest," asked the speaker, "has the country in immigration? I fail to see it." (Applause.) It was often said that more immigrants were wanted to make wages lower. The hapless country was not the one with the lowest wages. The most prosperous country was the one with the highest wages, because the products of the country were in great demand. By procuring cheap

articles a country also produced a class of paupers. People would be attracted to the number of poor as compared with the number of rich in some of the countries in Europe, and unless they in South Africa were very careful they would arrive at the same state of affairs.

People are Independent.
On the average the people of South Africa were independent, an attribute more happy and prosperous than were the people of the average in countries with larger industries, such industries being built on the poverty of the people. Society, remarked the speaker, was based on a false foundation, and that being so, it was not likely to have its thousands and millions of paupers, but who could show any reason why South Africa should have? It is the duty of the Unionist party, he said, to let it come through normal development. Why, then, should they state money to be drawn to the level of those in Europe to bring it to that level?

Members of the Unionist party, which places the encouragement of immigration in the forefront of its policy, are at present in a quandary. General Hertzog's attitude, but there can be no question of the fact that the population of the country is in great demand. By procuring cheap

Shoplifter Had a Remarkable Career

WELL KNOWN BARON GRACES THE DOCK IN PARIS POLICE COURT AND TELLS STRANGE STORIES OF THEFTS AND DEEDS OF HIGH FINANCE.

(International News Service)
Paris, July 17.—An amazing career of a man who is charged with shoplifting has been told to the Paris police.

He is said to be a baron, the natural son of a king line since dead and husband of a countess, from whom he is at present separated.

His mother was embezzled after his birth, and was married to a count.

The boy is described as having grown up with a liking for adventure and was placed on board a ship and travelled round the world for four years.

He returned as independent as ever, and such a favorite that his mother, who was delighted to give him his daughter in marriage, with a suitable fortune.

After his marriage, however, the young baron, it is stated, found life tedious in the old family castle, which was part of the dowry of his wife, and went to the great cities for adventure and amusement.

He purchased horses and got up a splendid racing stable, but soon lost his taste for this sport and took to gambling.

His wife's fortune dwindled down to nothing, and he was reduced to all sorts of expedients, such as pawnbroking and jewelry.

His father-in-law became highly indignant, and took back his daughter, leaving the baron only a paltry allowance per month.

Most likely he had been accumulating with surprising rapidity for the last eight months, and this, it is alleged, drew the son of a one-time king to the extremity of shoplifting.

When the police entered his place they found an extraordinary variety of objects; rubies, sapphires, diamonds, any amount of linen, and more than 1,000 neckties, which, it seems, had been ordered from a number of shops and the bills for which the baron had been unable to settle.

Since his arrest, the shopkeepers have been sending the bills to the police authorities. There is only one hope, and that is that his wealthy father-in-law may come to his rescue.

Parliament Will Convene Tomorrow

RECIPROCITY AGREEMENT WILL FORM THE CHIEF TOPIC OF DISCUSSION NEXT WEEK—PROBABLE THAT GENERAL ELECTION WILL FOLLOW.

(International News Service)
Ottawa, Ont., July 17.—The Canadian parliament is to convene tomorrow and shortly thereafter the long deferred reciprocity agreement will come up for a vote.

Today the much talked of agreement is the subject of discussion among citizens and government officials alike, and the naturally optimistic future is predicted for the measure.

Sir Wilfrid Laurier and his two cabinet ministers, who arrived recently from the imperial conference and co-ordination conference in London, have conferred with Sir Charles Fitzpatrick, deputy governor, and semi-official reports of the conference state that the government believes the measure will be brought before the legislators as soon as the redistribution of parliamentary seats, according to the census is made. Some members of the official staff even go so far as to predict its earlier conclusion.

Among the mass of the people the proposed agreement has been causing steadily in favor during the interval between the adjournment and the present day, and even the more rabid newspapers have not noticeably lessened

their attack.

It is thought, however, in more conservative circles that the legislation that marked the last Parliament's attitude on this measure will be reflected in the coming session, for it is pointed out that Canadian politicians as a whole prefer to await the decision of the United States congress on the matter before committing themselves. If these predictions prove true a vote of the measure may be delayed until action is taken by the United States.

ALPINE ACCIDENT PREVENTS MARRIAGE

PROSPECTIVE BRIDEGROOM FALLS OVER INCLINE AND IS FATALY INJURED—BRIDE DISTRACTED

(International News Service)
Geneva, July 17.—A fatal Alpine accident has prevented a marriage which was fixed for this week, the fiancée, Miss G. Berni, was falling a wall with his fiancée in the lower Jura Alps, where guides are not required. While

Mr. Berni was attempting to descend to his aid, but failed and went to the nearest house for assistance. The rescue party found Goeveer still living, but he died soon after being taken to the hospital. His head being seriously injured by the rocks.

The contract calls for the bride to be installed not later than November 22, 1911. The Westhouse company of Pittsburgh has the contract and is working on the machine, with every prospect of its being completed at the time fixed. When installed the turbine will generate all the electricity required by the city for some time to come.

It is quite plain that Mr. Berni is still in a present frame of mind, and has been turned down on his request to install a 1200 K. W. turbine instead of a 2000 K. W. turbine.

GERMANS TAKE SAMOAN WIVES

INTER-MARRIAGES IN SOUTH SEAS ARE SAID TO BE VERY COMMON—WRITER FLEES ISLAND

Berlin, July 17.—The latest news from the South Seas brings a story which illustrates, in a fashion of once comic and serious, the difficulty of the German conqueror in Samoa; to wit, the readiness of the German settler to intermarry with the native women. The white population of the German colony is about five hundred, and there are already about eleven hundred half-castes. Of the twenty married German officials, no fewer than twelve have Samoan wives.

Some of the natives speak English and refuse to learn German, the frequency of these intermarriages causes considerable disquiet in colonial circles in the Pacific.

In April last a German settler named Michaels took it into his head to express these truths in a letter to the colonial newspaper, advising the natives to abstain from intermarriage with the German women.

The natives were inefficient and unworthy wives. Michaels has an address and a more gratifying proof of his power to arouse interest and inspire action. The very next morning a detachment of several hundred Samoan women of various shades vaulted upon him armed with whips, sticks, and candles, and expressing their determination to "teach him how to treat a colored lady." The police were just in time to rescue Michaels by taking him into custody. But the dusky Amazons scored in spite of the police, for the authorities had to humiliate the settler in front of the island as the only means of preventing serious trouble.

NECROLOGIC
The funeral of Edward Musk, the Edison laborer who died from the effects of the operation of his right leg by the wheels of a passenger train a few days ago took place at 3.30 p.m. yesterday afternoon from Gannely and McKinley's undertaking parlors, to the cemetery.

The death occurred on Thursday, July 13, of Chas. Mackin, son of Mr. and Mrs. J. H. Mackin of this city, at the age of four years. The funeral will take place at 10.30 on Monday morning from Gannely and McKinley's undertaking parlors.

Miss Ethel Gaudish of North Edmonton on Saturday at the age of 90 years. The funeral will be held on Monday afternoon at 2 o'clock from Gannely and McKinley's undertaking parlors.

RENT AT THE BAY

REAL ESTATE MEN AT DENVER
(Union Press Service)
Denver, July 17.—The advance guard of delegates reached Denver today for the convention of the National Association of Real Estate Exchanges. It is expected that fully 1,000 prominent real estate men, representing every large city of the country, will be on hand when the convention begins its sessions next Tuesday. Monday will be given over to the reception of the visitors, in honor of whom an elaborate programme of entertainment has been arranged.

MARY YACHTS AT THE BAY
(Union Press Service)
Put-in-Bay, O., July 17.—With a fleet of over two-score boats in the bay today, including sail and power yachts of all sizes, races and regattas, together with some of the finest motor boats on the great lakes, it looks as if the annual regatta of the International Yachting association would rival, if not eclipse, all of the summer events in the past. The regatta will open tomorrow with the reception of the visitors.

THE EDMONTON CAPITAL

THE EDMONTON CAPITAL

DID COMMISSIONER HAVE BRAIN STORM?

SAID BLUE PRINTS FOR ENGINE WERE NOT IN CITY—DELIVERED JULY 8

Did Utilities Commissioner Bouillon suffer a severe lapse of memory or did he deliberately misrepresent the actual facts when he stated at the commissioners meeting Friday afternoon that he had visited the power plant within the last day or two and found that the plans and blueprints for the 2000 K. W. steam turbine, to be installed, had not arrived?

Mr. Bouillon made the bald statement, absolutely devoid of any promises or qualifications, leaving no room for doubt as to what he said or meant. It was possibly in error, either intentionally or unintentionally, his evident purpose being to discredit the mayor and superintendent of the power plant.

The facts are, as it now develops, that the plans and blueprints for the turbine have been at the power plant for nearly a week, having arrived there on the 10th inst. Everything is therefore in readiness to begin work on the foundation for the big turbine, notwithstanding the statement of Commissioner Bouillon that no preparations were being made to that effect.

The contract calls for the turbine to be installed not later than November 22, 1911. The Westhouse company of Pittsburgh has the contract and is working on the machine, with every prospect of its being completed at the time fixed. When installed the turbine will generate all the electricity required by the city for some time to come.

It is quite plain that Mr. Bouillon is still in a present frame of mind, and has been turned down on his request to install a 1200 K. W. turbine instead of a 2000 K. W. turbine.

ACTION IS DISMISSED
Teacher Who Alleged She Was Wrongfully Dismissed Loses Suit Against School Board

Action for wrongful dismissal brought against the school board by Miss Alice Laing, a teacher who was dismissed by the board of trustees, was dismissed by the court yesterday.

Miss Laing was engaged by the school board of trustees on August 22, 1910, for a term of four months at \$10 a month. Before the end of that term, however, she was dismissed by the board, and she brought action in the district court of Alberta for the recovery of the sum of \$125.14 which she alleged was the balance of salary due to her.

In defence it was alleged that Miss Laing was dismissed for good and sufficient cause by resolution of the board.

German Government Opposed to Socialism

MEMBER OF PARLIAMENT WHO LUNCHEONED WITH KAISER IS CONDEMNED BY INDEPENDENTS—FORMER DECLARES OPPONENTS TALK "CLAP TRAP."

(Globe Press Service)
London, July 17.—Recently Mr. J. Ramsay MacDonald, M.P., had the honor of luncheon with the German Emperor, and in the July issue of the "Socialist Review" he refers to the matter at length. He states that the invitation was received in the first place from the emperor, and that the officers of the labor party considered it acceptable before recommending him to accept it. A number of branches of the independent labor party have passed resolutions condemning Mr. MacDonald for dining with "the enemies of Socialism." These he characterizes as "simply impertinent and foolish," and continues:

"If such a clap-trap were to be laid down with their wives, and they could not even see the thousands of members of their own family. That the German government is unopposed to socialism, that it has tried to represent socialism, and that the Kaiser himself has spoken nearly as strongly as Lord Rosebery in his worst moments every body knows. But in this respect there is plain rule for every one's guidance. So long as socialism is rational and honest, it is not a social evil, which is a constitutional and civilized character, it cannot be regarded as a thing which must break personal contact. What it comes to is that one may properly discuss socialism with the Kaiser, just the same way as one discusses it with Mr. Balfour or Mr. Asquith."

CONMEMORATE NAMING AMERICA
(Union Press Service)
Paris, July 17.—The celebration commemorating the four hundredth anniversary of the publication of "The Monographia Introductiva," in which the name of America was first applied to the new world, began today in the little town of St. Die-des-Vosges, where the far-famed book was printed in 1492. The American ambassador and many of the prominent members of the American colony in Paris attended the exercises today, the chief feature of which was the placing of a memorial tablet on the building where the book was printed.

CONSECRATE BISHOP OF DALLAS
(Union Press Service)
Dallas, Texas, July 17.—Elaborate ceremonies will attend the consecration of William Winter as Bishop of the Roman here on Monday of Father Joseph Catholic diocese of Dallas, successor to the late Bishop Dunn, Archbishop Blenz, of New Orleans, will be the consecrator, and his associates will be Bishop Gallagher, of Galveston, and Bishop Morris, of Little Rock. The Rev. Michael S. Ryan, president of Kenrick seminary, at St. Louis.

DO NOT WANT CROWN PRINCE AS INSPECTOR GENERAL
(Globe Press Service)
Albany, July 17.—The premier's proposal to re-appoint the Crown Prince to the army as inspector-general is meeting with considerable opposition in unlooked-for quarters. This is the more unfortunate as the affair was considered to be practically settled. It

will be a matter for much regret if the courageous attempt of the premier to reconcile the crown to the army should ultimately fail and the business of the military capacity be lost to the nation.

Andrew Furness, president of the International Seamen's union of America, has submitted a plan to President Taft to organize the military capacity of America, of whom it is estimated there are 3,600,000.

CLYDE THE NEW TOWNSITE ON THE C. N. R. In The Heart Of Alberta

Surrounded by the most progressive settlement in Canada. **On sale today** at homestead prices—Prices that tell their own story. Every new town has merit—But **CLYDE** is assured. The rich country and the railroad—no other proposition at double the amount offers even a shadow of such short-range profits. The fact of this being a townsite, not a sub-division, will appeal to the most exacting.

Facts You Can Bank On

The location is ideal, close to a fine lake. The distance from the Capitol warrants a town as the country demands it. The people have been waiting patiently for the steam cars—now they are almost here and soon the rush will begin as we have made every preparation to encourage all the required industries requisite to a commercial centre already established in our midst and of which we have not the slightest doubt of its realization.

Prospects In Sight

Natural gas the leader, oil and asphalt in close proximity and plenty of coal; a marl deposit that can be operated and realized on; a junction; good brick material; in the stock region; in the wheat belt—the home of the finest potato in the world, an industry in itself—a dairy country unequalled—with plenty of building material, close and reasonable, with mills to saw it—everything required to make a city and in short time.

Inducements To Investors

The small trader has a chance because every line in trade will ere long be recognized. A large depot is being contracted for—a large hotel, a large livery and a big store is already doing business. But that is only a drop in the bucket. We have in view a thousand such institutions that will be necessary to the requirements of the public—the country here is every foot taken and all are ready and waiting to do business. Don't linger, for such low prices won't continue long, only to introduce the name and get a few to tell their friends. Steel will be laid in two weeks.

Prices \$45.00 up KENRICK & CO.

Terms: \$25 cash, Bal. 6 and 12 months

The "Real Scream" Of Sells-Floto Circus

Rich, Rare and Very Realistic, Miss Roberts Appears on Edmonton Streets, Causing Considerable Commotion.

"Well, what do you know about that?"

"Say, look at this dame here—no, over this way—the one in the green skirt."

"Say, man, that's a harem skirt! A real harem skirt!"

"Hump, you don't say so. Gee, that's pretty force, going right past us. Now, keep your eyes open."

"Mostly howling hyenas, but that's a corker, isn't it?"

"Say, that don't look so bad from behind, after all. Really, it's almost ugly. By George, I believe I like it. 'Tisn't nearly as bad as people say it is."

"But a dollar she's one of the circus people."

"But she isn't."

"Well, she was. She's a circus lady, but she has exchanged the rings on her fingers and bells on her toes" stuff and is doing the real classy stunt to startle the native villagers.

Edmonton had its first glimpse of a harem skirt worn by a real lady this morning.

Harem skirts have been shown in the store windows here, but no one has yet had the temerity to Edmononton to appear on the streets, unless it was after midnight, with the electric lights.

Most people were prepared to hold up their hands in holy terror and shout for police protection when one appeared, but nothing like that happened this morning. Not on your hump!

Everybody was shocked, of course; you know it is conventional to be shocked at such things and people do like to be shocked, because it is so much less troublesome to be on the side of the majority, but everyone forgot to be horrified.

After the first formal shock, provincial curiosity got the better of everyone and necks were stretched out and eyes rubbed in order that nothing might be missed. Mouths were opened, too, but this is an instinctive reflex action which always accompanies curiosity and is unexplainable. And after the gown had passed everybody took general opinion that "it wasn't so bad, after all."

One man even went so far as to say that the skirt would be a blessing to the women, if they would only wear it. The women just glared at the skirt, and then turned their noses up disdainfully, but the skirt and curiosity drew their heads round again like a magnet, and returning disdain pulled the heads back and between the two motions the heads were back and forth like a bar door in a storm. And then everyone concluded that after

MISS ROBERTS

all, as Robert Hubbard said, "There was nothing new under the sun for a harem skirt."

Miss Ethel Roberts was the lady who set the whole town seething about the harem skirt. She appeared on the street about 10 o'clock with her escort, Jerry Clayton. The skirt was a brilliant green creation, embroidered with gold lace. Miss Roberts is one

National Insurance Bill Is Discussed by R.C. Bishops

Special Insurance Scheme for Ireland Is Favored—Aran Islands Dispute May Be Settled Soon

Dublin, July 17. At their meeting the Roman Catholic bishops passed a resolution on the national insurance bill. They regarded the measure as admirable for England and Wales, but as inapplicable to Ireland, which is in the main an agricultural country.

The resolution refers particularly to the clause which compels parents to insure their sons and daughters over 16 years of age. The cost of the whole scheme would be a heavy burden on small industries and would, in the bishop's opinion, increase unemployment. The bishops therefore request the chancellor of the exchequer

of the leading bareback riders with the Sells-Floto circus, and she was out for the air and a little shopping tour. Clayton, her companion on this morning's walk, is one of the leading clowns of the big aggregation.

Miss Roberts wore the harem skirt given at this afternoon's performance in the big tents, demonstrated how to wear the latest thing in women's apparel. She will appear in the gown again at tonight's performance. The skirt cost exactly \$200, and the trappings another \$100.

CARTWRIGHT CONCERT COMPANY

IS COMING TO EDMONTON

The famous Cartwright Concert company of Chicago, consisting of Mr. and Mrs. Forest Cartwright, their daughter Dorothy, and Miss Blanche Porterfield, have decided to visit Edmonton during a short vacation on the recommendation of their manager, Mr. H. H. Davis, himself an old Edmonontonian. They have recently come through the Western States, playing to huge audiences in the principal cities and towns of California, and are now visiting Western Canada for the first time. It was during the summer of 1910 that the Cartwright Concert company were significantly honored in being selected for a return engagement as the headline attraction of a great chautauqua assembly, and it was just ten months ago when the present tour of ten thousand miles to California and the Canadian Northwest began. The present tour has met with marked success. Popular or secret programs have been given, the various audiences en route displaying a remarkable enthusiasm, and the hearty reception to the Cartwright company has been little short of one continuous ovation.

to extend the bill to Ireland and to set apart Ireland's share of the state contribution, either for a special insurance scheme for Ireland or for some other national purpose.

The bishops ask the Nationalist parliamentary party to urge this policy in parliament.

Aran Islands Dispute.

Negotiations are proceeding with a view to a settlement of the Aran Islands rates dispute. The inhabitants of Inishman and Inishbeg, the middle and south islands, are over five years in arrears with the rates, and the recently elected county council of Galway has determined that the islands shall no longer enjoy this exemption. The islanders spent last week in the expectation that on Thursday last, if not before, an attempt, backed up by a bare force of police, to be conveyed to the islands, and if resisted, would be made to dislodge upon their battle. A conference of representative inhabitants of the two islands was called by the parish priest, Father Marzagar, and they decided to negotiate with the county council.

Father Farragher stated that the basis of the agreement was the acceptance by the council of one and a half years' arrears, wiping off the rest, on condition that the islanders pay the current rates up to 1912. The islanders would further expect the council to support special legislation with regard to the local government constitution of the islands. Father Farragher believes that he has pressed home the advisability of this legislation upon Mr. Birrell, who visited the islands recently.

The proposal is to make the islands a separate district, or to arrange for them to be specially rated. At present they form part of the Galway rural district, and it is complained, at all events as regards the middle and south islands, that no roadmaking or other useful works are ever carried out by the local authorities.

Industries' Association.

The Marchioness of Londonderry, president of the London committee of the Royal Irish Industries' association, occupied the chair at a special meeting held at Londonderry House, Park lane, to discuss the question of holding autumn sales this year and in 1912. Mr. Wood, the deputy chairman, in an inspiring speech, said that the London depot of the association had only just passed the distinction of supplying the court train special needle point here to be

presented to her majesty as a coronation gift from the women of the Belfast district. A flounce sent in by the depot to the selection committee was actually chosen by the Queen as the specimen she preferred, both as regards design and workmanship. Unfortunately, they were forestalled by the lace school, which was practically the only place where the work could be created. Business during the past five months had been good, showing an increase of \$1,500 over the corresponding period of 1910, and was nearly \$500 better than the average of the past ten years. The result of the St. Patrick's day sale at Lansdowne house was most satisfactory, the total receipts amounting to \$10,020.

The meeting was strongly in favor of continuing the autumn sales, and the committee was instructed to consider the prospects of holding a successful gathering at one of the following places: Bristol, Liverpool, Newcastle, Bath, Cardiff, Bradford or Plymouth. The president announced, and cordial applause, that if the committee could not find a more suitable house next year, Lord Londonderry and she would be very pleased to place their mansion at the disposal of the committee for the St. Patrick's day sale.

A man named John Elkes collapsed in front of the Bank of Commerce on Jasper avenue on Saturday night and was removed in the ambulance to the City hospital. He is recovering.

Real Estate BULLETIN

Inquiry in business districts is again for Jasper avenue and warehouse sites.

In residential lots the Grosvenor, Ingewood and Glenora are in steady demand in the West End and Norwood and Delton in the East, with some Ottawa and Government avenue.

In the houses the West End, from 7th to 25th streets has the preference, with some East End enquiry also.

Subdivision and farm lands are also being asked for.

Alberta Park

Blocks in this suburb are selling at from \$7,250 to \$1,800, and each of these will subdivide into 26 lots of 50x140 feet, making a sound investment for the future.

See us about this, it is worth looking into.

Phone 1850.

Today's Offerings Business Properties

NEWS OF THE CITY

The city last evening on the special excursion organized by H. H. Malet, president of the city, to the city of Quebec for many years. It is his intention to go into practice at Trois-Rivières, 36 miles north of Vegreville.

Everyone interested in "old time hymns" and the "old time religion" may hear by attending the regular Tuesday evening service at Bendish Mission this week. Rev. G. M. Good, and evangelist from Berlin, Ont., who has been conducting the Memorial camp meeting services at Bendish during the past week will have charge of the meeting. An open invitation extended to all regardless of class, creed or color. You will have a good time, too, not forget. Tuesday evening, 8 p.m., in Bendish mission hall.

Robert Lowe, of Whitehorse, formerly of Brandon, speaker of the Yukon council, is in the city, at the King Edward.

The regular meeting of the trades and labor council will be held in the Trades Hall, Third street, this evening.

Mr. and Mrs. T. M. Graham of Buffalo, N.Y., are spending a few days with their uncle, Mr. Frank Bradley, of the public works department.

Parties of Edmonton people who were out on Cookin' lake yesterday afternoon in gasoline launchers when a storm broke over the lake narrowly escaped drowning. The waves came with such a force that neither of the boats could make any progress and to complete the dilemma one of the engines ran out of gasoline and became stalled.

A. G. McDougall of the contracting firm, McDougall and Foster of Calgary arrived in the city this morning from the south to commence work on the new block of the Southern Alberta Loan and Investment Company which is being erected on the property south of the King Edward hotel at a cost of \$10,000.

Between ten and fifteen housewives spent a couple of hours in the rain this morning at the door of the land office, waiting for the hour when they might file upon their quarter sections picked out by them in various districts of the north and northwest.

The morning has been an exceptionally busy one in the land office, in spite of the unpropitious weather.

After five years spent in the north country, Miss M. S. Kemp, matron of the Anglican mission at Gravelly, came into the city this morning on route for her home in Toronto, where she will spend a year's vacation before returning to her work in the north.

Sometime next week the city health department expects to issue the anti-fly placards containing instructions concerning abating the fly nuisance.

The city physicians were recently before the commissioners asking for permission to institute such a campaign against flies and such permission was granted.

During the past week, 25 new-born babies in the Edmonton district registered at the lunation hall on First street, on Saturday a woman named Lutz with her wife and six children registered at the hall; they will settle in the Stony Plain district.

A letter was received by immigration agent Webster this morning from a man named Lutz, who stated that there were several families at Gravelly, who were coming to West-Genoa via live information relative to conditions in the Edmonton district and the agricultural possibilities was requested.

H. A. Craig, Superintendent of demonstration farms, came into the city on Saturday. He will leave this afternoon in company with Hon. Duncan Marshall, for the demonstration farm at 2000-2001.

All well-known machinery has been installed at Fort McKay, by the engineers of the Fort McKay Oil and Asphalts Co., according to H. Ward, a dealer of the company who came into the city on Saturday. The well-known operators will now be well underway, Mr. Ward noted.

HAS ORIGINAL SCHEME TO ADVERTISE EDMONTON. Delegate to Grand Erie of Eagles at "Frisco Puts up Proposition to Commissioners."

To property and justly present the city of Edmonton to the Grand Erie of Eagles in connection with San Francisco, California, in August next, Joseph A. Clark, delegate from the Edmonton here, has suggested to the board of commissioners that photographs be taken as Jasper and First streets at the hour when the traffic is heaviest. It is likewise suggested by Mr. Clark that a few extra electric cars be run at that particular point and at that particular hour, and the public be invited to have their business at that point, so that Edmonton will have a due justice done to her business center. The matter is to be considered by the commissioners. Mr. Clark would like the photographs to San Francisco with him and have them published there in connection with the suggestion of Edmonton as the next place for the Grand Erie to convene.

FOOD INSPECTOR IS A NECESSITY

HEALTH OFFICER WANTS SPECIAL MAN TO INSPECT PROVISIONS OFFERED FOR SALE

Within a few days the new regulations of the provincial government pertaining to the provincial health act passed at the last session of the provincial parliament are expected by Dr. T. H. Whitely, city health officer, to be in force.

Under the revised regulations, the board of health is to be called, a survey of the situation, and an activity on the part of the board assumed which has been heretofore impossible.

The city health officer states that the health board will decide upon a specific day on which to meet each month, and when the more routine work of the department will be considered. Special meetings will be held when occasion demands.

Among the things that the doctor hopes to get started is a provision for the inspection of all foods offered to the public for sale. The meatshops would thereby be inspected and required to keep the meats in such a manner that flies and dust could not reach them. Slaughtering supervision might be brought about, and eating and eating houses would likewise be under this inspection.

These some steps taken some months ago relative to such an inspection.

CAUGHT BIG FISH IN SASKATCHEWAN

WORKMEN IN LOCAL LUMBER MILLS CATCHES FISH 4 FEET 7 INCHES IN LENGTH

Fishermen of Edmonton do not have to go outside of the city to make a catch of fish. They can get all kinds of them and all sizes of them right in the city. Last night a Galician named John Wolenski, a laborer in H. H. Fraser's lumber mill, went fishing and caught what he at first thought was a small fish. The line he had was an ordinary light one so that when the bite came and the tremendous tug at the line stretched it tight he began to let it out for fear of breaking the line.

When it was tired he got a rope and pulled a couple of hours until it was lifted out of the water. When measured it proved to be 4 ft. 7 in. long and weighed 20 pounds.

The fish is probably the largest that has ever been caught in the Saskatchewan. It will probably be placed on exhibition in a glass water tank somewhere in the city. It is still alive. It was caught close to the side of the H. H. Fraser Lumber mill.

The application of Hon. Duncan Marshall, minister of agriculture, for a special 810 harvesters excursion rate from Ontario points to Edmonton, Calgary and Lethbridge, is being taken up by the three railway companies concerned, according to communications received by the minister this morning.

A definite announcement as to the companies which will be given in the immediate future.

FILING HORSES TEETH.

Mr. C. A. Carson, Hudson's Bay factor at Omba Lake, Saskatchewan, had an arm broken in two places yesterday and a shoulder dislocated attempting to file a horse's teeth. The animal reared and came down on him crushing his arm against the wall.

TOO LATE FOR CLASSIFICATION

UNION CARPENTER, CONTRACTOR AND BUILDER, small cottages, a specialty. 12 pair work and additional extra prompt estimates. Estimates furnished, patronage solicited and satisfaction guaranteed. Phone 1850. Geo. W. Mather, 217 W. MAIN AVENUE.

TENDERS

For Plastering Work for Court-House Building, Edmonton, Alta.

Several sealed tenders, addressed to John Wicks, Deputy Minister of Public Works, Edmonton, and enclosed "Tenders for Plastering Work of the Court House Building, New Parliament Building, Edmonton."

Each tender must be accompanied by an approved cheque, payable at par to the order of the Deputy Minister of Public Works to the amount of five (5) per cent of the tender.

Sealed tenders shall be received by the Deputy Minister of Public Works at the Court House Building, Edmonton, until 10 o'clock on Saturday, July 22nd, 1911.

The acceptance of the successful bidder shall be held subject to the conditions of the contract and the award of the contract shall be held subject to the conditions of the contract.

The right to reject any or all tenders is reserved.

JOHN WICKS, Deputy Minister of Public Works, at Edmonton 1015 44th St. July 1911.

HARVEST WILL BE TWO WEEKS EARLIER THIS YEAR

That the harvest this season will be from ten days to two weeks earlier than last year is indicated in the crop reports that are coming into the city.

As yet, the continued wet weather has done little or no damage. In some low spots where the water is still rising the grain is drowned out, but these patches are very small.

From St. Albert the report is that conditions during the past week have been very favorable to a steady growth. No damage is reported from hail or any other source. The reports from different towns in this district are to the effect that conditions have been ideal during the last two and a half weeks and that prospects are the best seen since 1906.

SIGNING DEBENTURES.

Mayor and Secretary-Treasurer have a strenuous task ahead of them. Signing of city debentures, a task requiring the signature of their 3,500 names and a task that will occupy some ten days, was commenced by Mayor Armstrong this morning.

The secretary-treasurer must sign his official signature, 1,000 times to the same debentures. This work will be occupying every spare moment of the officials for some days. It was with a sigh that the mayor started the work this morning. The two officials expect to be exceedingly expert in affixing their signatures to the debentures by this time.

G. W. Fisher, teacher in the school at Ground camp, is on the land there properly and promptly with eyes shut, and never miss a stroke.

Geo. Harcourt, deputy minister of agriculture left the city last evening for the south.

CITY PURCHASING DEPARTS. MOOTED

MAJOR WILL RECOMMEND TO THE COMMISSIONERS THAT ONE BE ESTABLISHED

"What are my duties" may be a matter of discussion at the meeting of the city commissioners this afternoon when the directors of municipal affairs meet at 2 o'clock in regular session, but one of the important items to be considered is the recommendation of Mayor Armstrong and a city purchasing department. It is intended to have all the purchasing of supplies for the city done under one department and under one head instead of having the various departments purchase as in the past.

At the last meeting of the board, Commissioner Boulton complained and knowing of what his duties consisted since his wings were clipped by the commissioners in taking from him the direction of the water system which has been so unsatisfactory under his jurisdiction.

MAY SELL A PORTION OF INDIAN RESERVE

It is probable that eight sections of the Lake Wahmum Indian reserve will be offered for sale as farm land this autumn. If they are not sold this year they will be placed on the market some time during next summer. J. K. Melican, one of the surveyors in the Indian department of the Dominion government who has been at work recently in Edmonton today on his way to Wahmum to lay out the land that is to be sold. This will consist of eight sections of the reserve cut off from its eastern end.

Boilers Repaired

Not a single boiler repaired by an experienced boiler maker. For satisfactory work call or send a postal card.

NEW PREMISES: JASPER AVENUE. JACKSON: BROS.: JEWELERS.

Rapid progress is being made on the handsome four-story block which is being erected on Jasper Avenue by Jackson Brothers, and within the period of a few months, the building as shown in the above illustration will have been completed, adding greatly to the dignity of the business floor, and accomplishing another step in the modernization of the architecture of the city.

Excavation has been completed for some time past, and the workmen are now engaged upon the foundations. The work will be carried through with all possible speed during the summer and fall months, and before the fall is far advanced, Messrs. Jackson expect to remove from their present inadequate quarters at the corner of Queens Avenue and Jasper, to the building of metropolitan appearance which is to be their future home.

Sixty feet of the rest of the new building will be occupied by the show rooms of the jewelry concern, and special letting equipment is being installed for each branch. Adjacent are a parking room and store room, which occupies the front of the premises, is 20 by 60 feet, and is fitted with heavy glass windows and with the latest devices for the tasteful display of the rich stock. Above the ground floor rise three additional stories to be devoted to offices and apartments. These will be accessible from a central entrance, made of a staircase and elevator.

The exterior is of pressed brick with stone columns carrying ornamental capitals and all the stone work is being done in Edmonton. The construction is being carried out by Pheasant and Dalton in accordance with plans prepared by Edmund Wright, architect, of First street.
